

DURABODY CERAMIC

More Dense. More Durable. More Designs.

THE CERAMIC THAT THINKS ITS PORCELAIN

Durabody ceramic tiles are made to last a lifetime, while looking like the day they were installed. That's a lifetime of muddy paws, stomping children, cold snaps and everything else life can throw at it. The Durabody secret? Our tiles are fired at the same temperature and glazed just like porcelain. That means you get virtually the same frost resistance, water resistance and durability as porcelain at a fraction of the cost. And with designs to match your taste, Durabody tiles will make any space beautiful—inside or out.
